🪪 About

Recent graduate with a Master's degree in Software and Data Engineering, currently working as a Full-Stack Developer at Yemora, an eCommerce company. I mainly focus on frontend development with React, while also expanding my expertise in Magento and Salesforce. Passionate about software development, I enjoy building efficient, scalable solutions and continuously growing my technical skills.

💼 Work Experience

Full-Stack Software Developer

▦ Yemora • Belgrade, Serbia
🗓 May 2025 - Present • Full Time
⚒ React, TypeScript, Sass, NextJS, Tailwind CSS, New Relic, GraphQL, Magento, Chakra UI, Salesforce

Working on various eCommerce solutions powered by major backends such as Magento, Salesforce, Shopify and the like. My role includes developing frontend, user facing applications.

JavaScript Intern

▦ Levi9 Technology Services • Belgrade, Serbia
🗓 Sept 2024 - Oct 2024 • Internship
⚒ NodeJS, React, MariaDB, TypeScript, Express, Jest, NextJS, Prisma, Swagger, Tailwind CSS

After graduating, I actively pursued internships and entry-level software engineering positions. I discovered an opportunity with Levi9 Technology Services through their JavaScript internship program. During this internship, I collaborated with a team to develop a full-stack solution for a private medical clinic.

Internet System Administrator

▦ Singidunum University • Belgrade, Serbia
🗓 Jan 2023 - Sept 2024 • Full Time
⚒ PHP, NodeJS, React, MariaDB, TypeScript, NestJS, Bootstrap, Vue

While studying at Singidunum University, I worked at the university's computer center, where I maintained and developed solutions for teaching staff and students. My responsibilities included creating administrative panels, examination platforms, performing hardware/software repairs, managing content, and maintaining servers.

Computer Center Volunteer

▣ Singidunum University • Belgrade, Serbia
▤ Oct 2021 - Dec 2022 • Internship

With a perfect GPA throughout my studies, I was invited to volunteer at the university's computer center. In this role, I was responsible for performing a range of hardware and software repairs and providing technical support to faculty members, particularly resolving any issues that arose during lectures.

🎓 Education

Master of Software Engineering
